East Coast Datacom, Inc.(ECD) Company's REACH statement

January 1, 2013

East Coast Datacom, Inc. monitors, and requires it's suppliers to monitor, the implementation of the EU REGULATION (EC) no.1907/2006 of the European Parliament and the Council of 18 December 2006 and as updated on 12/15/2010 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and responds to any affects that these regulations may have on ECD's supply of products.

ECD does not import, manufacture or otherwise supply chemicals. ECD's products are "articles" within the meaning of REACH. However, ECD's products do not contain any Substance of Very High Concern (SVHC) in excess of 0.1% by weight within the definition of the list of SVHCs published by the European Chemical Agency (ECHA). Similarly, ECD's shipment packaging, also considered "articles" under REACH, do not contain SVHCs based upon the 100% material content declarations we obtain from our suppliers.

Sincerely,

Richard O. Barger, Jr.
President

**RoHS 2, Chemical Substances in East Coast Datacom, Inc(ECD) Products
January 1, 2013**

Recent trends in the industry are driving toward more environmentally friendly materials. These changes are due to enhanced environmental awareness, and legislative restrictions of hazardous materials ECD is fully committed to providing environmentally friendly processes, products, and shipping packages that meet our customers' needs and meet our corporate commitment to protect the natural environment.

ECD offers all of our products **Pb-Free** in the marketplace. We have worked closely with our manufacturing partners to identify and rapidly eliminate the following list of substances from our Pb-free products. As a result, these products are RoHS compliant.

The European parliament has recently recast the original RoHS as **Directive 2011/65/EU**, adding new substances to the list of restrictions. This recast is commonly referred to as "**RoHS2**". ECD represents that all ECD products are **Pb-free**, including ECD's original packaging materials and do not contain the chemical substances listed below:

1. Lead (Pb) <1000 ppm
2. Cadmium (Cd) <100 ppm
3. Mercury (Hg) <1000 ppm
4. Hexavalent chromium (CrVI) <1000 ppm
5. Polybrominated Biphenyl (PBB) <1000 ppm
6. Polybrominated Diphenyl Ethers (PBDE – including Deca-BDE) <1000 ppm

ECD further represents that all ECD products do not contain the "**RoHS2**" chemical substances listed below (<1000 ppm):

7. Hexabromocyclododecane (HBCDD)
8. Bis (2-ethylhexyl) phthalate (DEHP)
9. Butyl benzyl phthalate (BBP)
10. Dibutyl phthalate (DBP)

Sincerely,

Richard O. Barger, Jr.
President
